Not Only Rates, but Labor Itself,
and See Greater Profits

NEW YORK, September 9.—At the close of an active session, in which United States Steel advanced 2 1/2 points, the stock market closed at a new high record. The advance was the result of a combination of factors, including the announcement that the government would regulate not only rates but labor itself, and the fact that the steel market was expected to be very active in the near future. The average volume of trading was 1,400,000 shares. The closing prices of some of the leading stocks are as follows:
